

OREOS COAT

SEALANT

Protects surfaces and makes them more resistant.

APPLICATION FIELDS

- Industrial floors (made of concrete, screed, designer screed, terrazzo)
- Natural stone floors (marble, granite)
- Synthetically modified cement floors

ADVANTAGES

- Rapid working into surface
- Floors walkable after 3 hours, complete hardening after 24 hours
- Very easy to polish without discolouring the floor surface
- High gloss finish
- Surface cleaning is greatly simplified
- Surface is more resistant to oil and acids
